PROFILE

I'm a frontend developer with 4 years of experience working with React js and React Native. I enjoy building apps that are not only functional but also provide a great user experience. Throughout my career, I've been involved in different kinds of projects, from early ideas to fully released products. I'm always looking to improve the way I write code, learn new tools. I care about writing clean, maintainable code.

COURSES

Full stack developer (**desarrollador web**), *Henry*

2021 – 2022

An online program that simulates a real work environment and prepares you for a career as a Full Stack developer,

WORK EXPERIENCE

Frontend Engineer, *AI Innovation Lab / Product Development Cell*

02/2026

- **Acted as the sole Frontend Developer** in a multidisciplinary "AI Pod," collaborating with Product Managers, UX/UI designers, and Backend engineers to build a high-performance MVP from scratch.
- **Engineered a modern, responsive web architecture** using **React and Vite**, prioritizing speed and a seamless user experience.
- **Integrated advanced Generative AI capabilities** by leveraging **Gemini and Claude APIs** to power core product features and automated workflows.
- **Successfully translated UI/UX prototypes** into functional, maintainable code within an agile, fast-paced development cycle.

Frontend developer, *Globant*

10/2024 – present

- Developing and maintaining cross-platform mobile applications using React Native and React js for websites, following clean architecture principles.
- Collaborating with cross-functional teams including designers, backend developers, and QA to deliver high-quality features.
- Working with agile methodologies, actively participating in daily stand-ups, sprint planning, and code reviews.

Frontend developer, *Globallogic*

11/2023 – 11/2024

- Mobile application development with React Native Expo.
- Collaboration with UX/UI designers and backend engineers to define solutions.
- Contribution to code reviews, ensuring high coding standards and best practices.
- Working with Scrum methodology for project management.

Frontend developer, *Global Wizards*

09/2022 – 10/2023

- Mobile application development with React Native for interactive and interfaces optimized for mobile devices.

TECHNOLOGIES
